

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

A complete set of these Proceedings is almost of unique occurrence, as only 25 copies of each number were printed on small paper. This large paper copy is probably the only one in existence. It came into the possession of the compiler by purchase from the secretary of the Society, for whom, no doubt, it was printed. The contents comprise many contributions of abiding interest to the numismatist, amongst which may be mentioned:—The Currency of the Isle of Man, A Find of Ancient Coins at Eccles, Autonomous Coins of Ancient Spain, The "Vox Populi" Coinage of 1760, Remarks on Early American Coinage, On the Rosa Americanas, Recent British Medals, Leadon Pieces, Coins Minted at Derby, Medals and Coins of the Pretender James, Medals of Napoleon I., The Free Money of Massachusetts, Early Lancashire Tokens, etc.

- * * The unsold copies of this work appear to have got into the hands of some London booksellers, who issued the sheets with a new title page and the addition of a few leaves of appendix. The new title is as follows, and gives a fairly accurate idea of the contents of this curious book:—THE HUMOURS OF AN ENTERTAINING DISPLAY OF THE ROMAN CATHOLICS AND NONJURORS, CONTAINING REMARKS UPON ENTHUSIASM, WITH THE STORY OF ST. GRAT'S EXORCISING AWAY ALL THE RATS IN THE COUNTRY OF AOST. THE FORTUNE OF A CONSECRATING THE DAGGER FOR THE ASSASSINATION OF PRINCES. THE STORY OF ST. ANTHONY'S GHOST, THE HIGHLANDER AND THE DEVIL. - Another copy (largest paper—only a few printed); 4to, half calf, 12s 1s
- * * The siege of Manchester was an important event in the great struggle between Charles I and the Parliament. The decided adherence of the people of Manchester to the parliamentary side caused it to be said: "That had not this town stood firmly to the King and Parliament the whole country would have been brought into subjection to the oppression and violence of the cavaliers."

The author was educated at the Manchester Grammar School, and died at the early age of 32 on the 14th of March, 1823, and was interred in Blackley Churchyard. Poor fellow, his was a case for commiseration! His name ought not to be forgotten in a new series, when one is published, of the 'Calamities of Authors.'"

- *. Of these reprints only very few copies were done (of some volumes less than a hundred copies were printed). The style in which they are produced has not been equalled by any other society. There are no such collections of the works of Taylor and Wither to be found in any library throughout the world as those which form the bulk of the Society's reprints. The collection, as enumerated above, cost the former owner seventeen guineas. To the custodians of public libraries, and others who may have in their possession imperfect sets of the publications of the Spenser Society, I would urge the advisability of immediately communicating with me, as I have on hand a large stock of odd volumes, and may in all probability be able to supply those required for completing.

The deeds in this collection will be found not only to throw light upon the histories of these two families, but also to add much to the general history of the neighbourhood of Wigan and other places where their estates were situated. In addition to this, the history of the church of Standish, the foundation of its chantries, the names of its early rectors, all receive much elucidation from these records. The dates of the deeds range between the years 1222 and 1633.

Three cattle dealers deposited with an old woman in Smithfield a sum of money on her undertaking not to give it up until claimed by all three. She was cajoled by one of them to give it to him; whereupon the other two sued her at Westminster.
